

# Hand sanitizer floor stand

## Floor stand with touch-free dispenser for desinfection of hands.

Efficient solution to secure better hand hygiene in public spaces such as offices, receptions, stores, events and exhibitions.

The floor stand design can be adopted to your company profile or unique environment. Standard model comes with company logo and instruction for usage. Communicate with your visitors through a 22" integrated screen with easy content update on USB. Add CMS basic (content management system) and IOT connection to add several units with easy updates.

Touch-free dispenser easy to refill with fluid alcohol or gel. Driven by 4 pcs AA batteries. Display produced in wood with a stable steel foot.
